<b>Use</b>	Outdoor	<b>Energy Efficiency 2023 (EU-2019/2015)</b>	F

## Description

This LED Lamp is specifically designed for public lighting, featuring high energy conversion and few maintenance costs. Offering instant light, it uses all consumed energy to produce a high level of brightness. Due to its high energy savings, you'll quickly get back your initial investment, with a long working life, a robust design and a high resistance to vibrations.

Perfect for public roads, industrial warehouses, workshops, factories, motorway tolls, petrol stations, car parks, supermarkets, etc.

\*Install in **open luminaires**.

\*During installation, it's recommended that excess equipment be removed (Ballasts, starters, etc.)

\*If these bulbs are installed inside a closed fitting with no air flow, they will not be covered by the warranty.
