Colour Temperature	Ref:
RGB	66280-132211

Technical Details

Power	18 W
Tension	220-240V AC
Rated Voltage	100-240V AC
Frequency	50-60 Hz
LED number	18
Use	Indoor
IP Protection	IP20
Material	Aluminum

Installation	Surface
High	200 mm
Wide	220 mm
Lenght	100 mm
Brand	EQUIPSON
Type of regulation	DMX
Selectable Opening Angle	25
Light color	RGB

Description

The **LED Spotlight 18W SUPERPARLED ECO 18 DMX RGB** contains a light source with 18 RGB LEDs with a total of 18W. It is manufactured by the prestigious brand EQUIPSON, a Spanish high-tech company specialised in entertainment and professional installation. It was founded in 1995, and after more than 20 years of rapid growth, the company has earned the trust and respect of all the major players.

Features of the LED Spotlight 18W SUPERPARLED ECO 18 DMX RGB

This spotlight allows to obtain a homogeneous colour tone. **It is controlled and regulated by DMX protocol through fixed channels, allowing you to control the behaviour of the LED lights at all times.** Its use is simple, just connect a console compatible with the DMX standard to the input enabled for this purpose.

Its heat dissipation system is one of the most effective on the market thanks to its high resistance aluminium materials and its honeycomb panel head. **With an opening angle of 25°** it is perfect for focusing the light on a specific place.

On the back of the spotlight there is an interface with a screen to display the DMX channels and buttons to navigate through the menu. You can select different parameters like manual dimming and strobe mode with speed control. The spotlight includes a DMX mode (7 channels) with individual dimming level, strobe function and automatic program.
