Rated Voltage	100-240V AC
Frequency	50-60 Hz
LED number	6
Light color	RGBW
IP Protection	IP68

Material	ABS
High	16 mm
Diameter	55 mm
Includes	Charger
Useful life	40,000 Hours
Power	1 W

Description

The **Aquarium Oxygenator with 1W RGBW IP68 LED Aquarium Light** is a small special light for aquariums. The aquarium light allows you to decorate your aquarium with multiple colours for air bubbles.

Features of the Aquarium Oxygenator with 1W RGBW IP68 LED Aquarium Light

Integrates **6 RGBW LEDs** and an air stone filter which, connected with an air pump outside the tank, **allows to simulate tunnels of small bubbles**. In addition, the air bubbles **will oxygenate the tank and help the water to circulate**. It can emit single-colour light in green, blue, red and white in combination with these colours to create **unique and surprising effects**.

It is designed to be installed at the bottom of the fish tank with the help of the suction cups included. Its structure is made of ABS, which makes it sturdy and prevents corrosion problems. Its IP68 rating indicates that the **product is sealed and watertight**, protected against complete immersion and dust.

Get the best lighting for aquariums of low consumption and at the best price in our online shop.

*Air pump not included.
