Ref:

☒ Warm White 2700K - 3200K

62234-122110

Technical Details

Power	1.2 W
Adjustable	No
LED number	20
Use	Indoor, Outdoor
IP Protection	IP44
Material	Crystal, Aluminum
High	130 mm
Diameter	85 mm
length	2 m
Room Temperature Work	-10 °C~+55 °C

It works with battery	Yes
Battery type	Ni-MH
Battery Voltage	1.2 V
Battery Capacity	600 mAh
Type of Load	Solar
Space	Yard, Pool, Terraces / Balconies
Autonomía Máxima	8 h
Light color	Warm White
Color Temperature	2700K - 3200K
Revisión Control de Calidad	No

Ambience

Description

The **Solar LED Jar Lamp** is **charged with solar energy** thanks to its solar panel. It does not need batteries or external power, the sunlight is enough to power the Solar Jar so you can use it at night.

To operate the Solar Jar, simply remove the lid where you will find the on/off switch. When you turn it on, **it charges completely under the sun within 6 - 8 hours**. Thanks to its 600mAh battery it is **able to stay plugged in for more than 8 hours**. The Solar Jar switches on automatically at night or in the dark. If you want the lights to work during the day, simply cover the solar panel.

It can be used anywhere because it does not need a plug or batteries, **it is ideal for a dining table, shop windows, children's room, patios, tables, porch, trees, terraces, gazebos, etc.**

The **Solar LED Jar Lamp** is a decorative, durable and portable accessory that you can buy at **LEDKIA**, our online LED shop.
