Description

This 90cm 3ft 14W T8 G13 Nano PC LED Tube with One Side Power 130lm/W is the perfect replacement for conventional fluorescent tubes that can be found in many homes and businesses.

This Sanan light source has a LED performance of 130lm/W **which provides 50% in energy savings when compared with conventional tubes**. This type of LED lighting is usually the best element for lighting any area, as we have a 300° beam of light.

When installing, we have to keep in mind that the connection of this 90cm 3ft 14W T8 G13 Nano PC LED Tube with One Side Power 130lm/W is only done on one side. Also, **as it works at 220-240V AC, it doesn't require a ballast or starter**, elements that increase consumption and reduce system efficiency.

Get this 90cm 3ft 14W T8 G13 Nano PC LED Tube with One Side Power 130lm/W and enjoy efficient and ecological lighting.
