Material:	Aluminium
Size:	Ø220x1670 mm
Cable Length	1900 mm
Warranty:	5 Years
Certifications:	CE & RoHS, UKCA

## ***Ambience***

## ***Description***

**This floor lamp is the perfect element for giving any space a touch of colour.**

Made from aluminium, this lamp has a simple design that provides a modern and carefree touch to any space.

The brightness of the lamp will depend on the bulb we use. This opens a door of infinite possibilities as we can use, for example, a filament bulb that gives off a retro touch or a more modern-looking bulb. What's important is that we **choose a bulb that adequately lights the space and features all of our required lighting needs.**

**Requires 3 E14 bulbs NOT INCLUDED with the product.**
