Description

This GU5.3 MR16 S11 6W LED Bulb (12V) is made from PC / aluminium **and provides us with a pleasant tone of light, along with focused and high quality light.**

GU5.3 bulbs are widely used in ceiling lights and also for lighting shop windows. This **GU5.3 MR16 S11 6W LED Bulb (12V)** is the perfect alternative for replacing older traditional GU5.3 halogens, achieving energy savings of up to 80%.

Installation is very simple, just remove the halogen bulb and install the new GU5.3 bulb.

Thanks to a reduced size, power and low consumption, these bulbs are perfect for shops, display cabinets, hallways, wardrobes, bathrooms, kitchens, etc.

Not Dimmable.

***Not compatible with electronic ballasts.**
