Description

The Double Modern Telephone Socket consists **of two RJ11 sockets**. The module has a standard size and is compatible with most flush and surface mounted boxes for mechanisms. With the glass frame which is available in the accessories section, it will provide a professional finish to the installation.

It is normally installed flush and is recommended for indoor use only. It is CE and RoHS certified. Made of polycarbonate, the double telephone socket module **is highly resistant and durable**. It complements the electrical installation of any space with the different sockets and inputs from our extensive catalogue.
