

Models

LED Starter	Colour Temperature	Ref:
	 Daylight 4000K	1906-173128
	 Cool White 6000K	1906-173134
	 Warm White 3000K	1906-173140

Technical Details

Power	18 W	Material	Pc
Tension	220-240V AC	Lenght	1200 mm
Rated Voltage	180-265V AC	Diameter	28 mm
Frequency	50-60 Hz	Room Temperature Work	-20 °C~+45 °C
Casquillo	T8	Useful life	40,000 Hours
Light Source	EPISTAR SMD2835	Selectable Opening Angle	300
Color Rendering Index (CRI)	80	Tube Length	120 cm
Brightness	2340 lm	Light color	Warm White, Cool White, Daylight
LED Performance	130 lm/W	Color Temperature	3000K, 6000K, 4000K
Use	Indoor	Energy Efficiency 2023 (EU-2019/2015)	F
IP Protection	IP20		

Description

This 4ft T8 LED Tube has one side power, a rotary head, an opal (frosted) diffuser and a cover made from Polycarbonate (PC).

Featuring an SMD2835 light source by Epistar combined with high quality components, this LED Tube has a 130lm/W efficiency. It can be connected directly to the mains easily and safely, eliminating the residual consumption of ballasts and starters. It lasts longer, requires less maintenance and provides instant, full light with no flickering. It makes no noises and is shock resistant.

The 85V-265V AC Multi-Voltage refers to peaks and drops. The tubes cannot continuously function at these voltages.

*Includes an LED starter.

***Installation not recommended in closed luminaires.**
