Description

The 3W Inox Recessed LED Ground Spotlight is perfect for decorative lighting in gardens, pathways, patios or walkways.

The 150 lumens provided by this LED spotlight are distributed over an opening angle of 15°, **making it perfect as a signalling beacon or courtesy light**. The colour temperature of the light emitted is 3,000K, which brings warmth to the space, creating a more welcoming atmosphere.

Made of stainless steel, the 3W Inox Recessed LED Ground Spotlight has an IP67 **protection factor that guarantees water and dust tightness**. It is therefore a LED lighting element for gardens that is designed to stand the test of time.
