LED Starter	Colour Temperature	Ref:
<input type="checkbox"/>	No Flicker Cool White 6000K - 6500K	623-173050

Technical Details

Tension	220-240V AC
Rated Voltage	85-265V AC
Frequency	50-60 Hz
Casquillo	T8
Light Source	SMD3014
Use	Indoor
IP Protection	IP44
Material	Pc, Aluminum
Lenght	1500 mm
Diameter	26 mm

Detector	Radar
Detection Angle	180 °
Room Temperature Work	-20 °C~+45 °C
Selectable Opening Angle	160
Tube Length	150 cm
Light color	Cool White
Color Temperature	6000K - 6500K
Energy Efficiency 2023 (EU-2019/2015)	F
Flicker	No Flicker

Description

This 24W T8 LED Tube uses a radar motion detection system, emits a brightness of 2400 lumens, has a 30,000 hour lifespan, comes with a translucent cover and emits a cool white light.

Thanks to its incorporated radar sensor, the light turns ON whenever it detects movement at a 180° angle and at a distance of 8 metres. The tube **reduces its brightness by 20%** when no motion is detected within range (180° and 8 metres), and 30 or 40 seconds have passed.

The radar sensor has high accuracy and range and is capable of being used in enclosed fixtures.

*Led Starter not included.
