Ambience

Description

The Adjustable Aluminium 1 Spotlight Wall Lamp with Switch in Silver with Switch in Metal is especially designed for indoor use.

Given its elegant design, this spotlight can be used both in commercial spaces such as shop windows or inside the shops themselves, or in homes, be it in living rooms, bedrooms, etc. Being made of aluminium, this adjustable Oasis Wall light stands out for the quality of its finish.

It's a very versatile type of LED lighting, because it can be adjusted in any direction thanks to its rotation axes. In addition, we can completely customize the type of light depending on the bulbs that we install in the lamp. This allows us to adapt the brightness of the luminaire to the requirements of each space.

Requires 1 GU10 that IS NOT INCLUDED with the product.
