Description

This **Pack of 5 5W E27 G45 400 lm LED Bulbs** is the perfect replacement for 60W conventional Edison bulbs. **Its technology is perfect for general lighting, where quality lighting is required.**

The emitted light is distributed evenly at a beam angle of 180° and thanks to its incorporated opal diffuser it reduces glare to a minimum. This 5W bulb is able to produce 400 lm with a luminous output of 80 lm/W.

Lighting that uses LED technology stand out for its efficiency and safety, this bulb is a clear indication of those factors. The **5W E27 G45 LED Bulb** does not contain hazardous substances such as lead or mercury, it generates very little heat and has an **extremely long lifetime**. The 5W E27 G45 LED Bulb is a clear example of the qualities of an **efficient and eco-friendly product**.

Take advantage of the incredible prices available at **LEDKIA**, our online lighting shop and achieve maximum efficiency in your lighting with maximum savings.

* For installation in closed luminaires, the maximum recommended ignition time is half of the maximum time specified in the general conditions.
