Colour

 Black

Ref:

20761-41641

Technical Details

Current Intensity	32 A
Use	Indoor, Outdoor
IP Protection	IP68
Material	Pc
High	75 mm

Diameter	24 mm
Working temperature	-40 °C~+105 °C
Maximum Tension	400 V
Colour	Black

Description

This Waterproof Cable Connector with 3 Contacts 0.5-4mm² IP68 is optimal for splicing or connecting electrical wiring in those areas where conditions require a high degree of sealing and resistance to dust, moisture and water.

It has internal terminals for the connection of 3 phases (Live, Neutral and Earth), with the admissible cable sections ranging from 0.5 mm² to 4 mm².

This Connector permits a maximum of 32 A of Intensity and 400 V AC.

*The metric of the screw threads is 20mm
