## **Description**

o Ledkia.

These CT 6 B-C Wall Studs for Cable Ties is a classic stud that's 10mm wide by 43mm long. **They're designed for attaching a stud to the wall and then passing a cable tie to hold up all sorts of products**. These are generally used for maintenance and repairs. They offer high mechanical resistance and can be easily installed. Apt for cable ties that are no thicker than 8mm.

\* Each bag contains 100 x units.
