## ***Ambience***

## ***Description***

**This Mini Villa light is, without a doubt, a highly decorative and versatile element** that can adapt to any style. This light requires an E27 bulb, so we can therefore choose the brightness of our light based on the bulb we install. Keep in mind that we can only use bulbs with a maximum width of 62mm. It can be fitted to any surface by screwing the unit to a wall.

The Mini Villa Wall Light also allows for installation with a lower bracket.

Give you outdoor spaces a modern touch, thanks to the outdoor surface wall lights available here at LEDKIA.

Requires an E27 Bulb that IS NOT INCLUDED
