## Ambience

## Measures

## **Description**

**This pendant lamp is the perfect element for giving any space a touch of colour.**

Made from aluminium, this lamp has a simple design that provides a modern and carefree touch to any space.

The brightness of the lamp will depend on the bulb we use. This opens a door of infinite possibilities as we can use, for example, a filament bulb that gives off a retro touch or a more modern-looking bulb. What's important is that we **choose a bulb that adequately lights the space and features all of our required lighting needs.**

\*The maximum diameter of bulb that can be used is Ø75mm.

**Requires 2 E27 Bulb NOT INCLUDED with the product**
