Power	Ref:
35 W	7337-16908

Technical Details

Frequency	50-60 Hz	High	99 mm
Current Intensity	1.5 A	Wide	82 mm
Electric Insulation Class	I	Lenght	30 mm
Use	Indoor	Brand	MEAN WELL
IP Protection	IP20	Power	35 W
Material	Aluminum	Revisión Control de Calidad	No

Description

The 24V power supply is ideal for connecting indoor lighting systems that cannot be used with direct connection to the mains. It transforms the alternating power supply from the mains the electrical network to 24V continuous.

Manufactured by the prestigious brand Mean Well, this power supply is light and compact. Its aluminium housing provides added durability and resistance. It has CE and RoHS certificates that guarantee the quality and safety of the product, as well as confirming that it does not contain toxic or dangerous materials.

You can adjust the continuous output voltage between a minimum of 20V and a maximum of 25V through the use of its controller.
