

G9 LED BULBS

## G9 5W LED Bulb (Dimmable)

### Technical Data

Power:	5 W
Power Factor:	0.97
Voltage:	220-240V AC
Frequency:	50-60 Hz
Dimmable:	Triac
Screw:	G9
CRI:	80
Lumens:	500 lm
Energy Class:	A+
Beam Angle:	360°
Use:	Indoor
IP Protection:	IP20
Material:	Epoxy Resin
Size:	Ø15x64 mm
Life Span:	30,000 Hours
Warranty:	3 Ans
Certifications:	CE & RoHS

## Product description

**This G9 5W LED Bulb is the perfect replacement for small G9 halogen bulbs of up to 40W,** considerably reducing energy consumption.

### Characteristics of this G9 5W LED Bulb

Its highly efficient SMD LEDs and 0.97 power factor **generate a brightness of 500 lumens, which can be dimmed whenever necessary, with a 360° opening angle.** Its high Colour Rendering Index guarantees a faithful representation of colours. It has a 30,000 hour working life and its exterior is covered with a high quality transparent epoxy resin which protects it against knocks and vibrations.

**Using this G9 5W LED Bulb is especially recommended in small spaces like shelves, shop windows or wardrobes, as these are small bulbs** that don't produce heat. Also, by working at 220V AC, we won't need to install a transformer.

Here at LEDKIA, we have this G9 5W LED Bulb available in a number of colour temperatures; Cool white, Daylight and Warm white. You'll also have a five year warranty.

Triac Dimmable.
