## Description

The **24W SAMSUNG New Aero LIFUD Micro prismatic 130lm/W LED Downlight UGR17 Ø 200mm Cut-out** has amazing attributes and is an excellent option for general lighting in commercial spaces.

### Characteristics of the 24W 4000K SAMSUNG New Aero LIFUD Micro prismatic LED Downlight UGR17 Ø 200mm Cut-Out

It features high-performance components such as a Lifud driver and high-efficiency **Samsung-SMD2835 LED chips**. With a luminous output of **130 lm/W**, this LED downlight is the perfect replacement for low-power **50W** downlights. It has a high CRI, so it faithfully displays colours.

The design of the 24W SAMSUNG New Aero LIFUD Micro prismatic LED Downlight UGR17 Ø 200mm Cut-Out provides uniform light distribution with a **beam angle of 110 °**. An opal diffuser is also included to help reduce glare.

It operates at a multi-voltage of **100-240V AC** and requires a **Ø200mm** cut-out for recessed installation. **It is made of aluminium which contributes to improved durability of the luminaire which has an estimated lifespan of 30,000 hours.**

It is mainly used in spaces requiring long hours of active use such as shops, museums, shopping centres, hotels, supermarkets, restaurants, etc. It plays a key role as a general lighting luminaire.

Purchase the 24W SAMSUNG New Aero LIFUD Micro prismatic LED Downlight UGR17 with dimming or non-dimming capabilities at LEDKIA, our online lighting store.

\* The dimmable version has a 1-10V dimming system.
