Size:	68x10 mm

Warranty:	3 Years
Certifications:	CE & RoHS, UKCA

Description

This Dimmer Switch connects a Profile with an Aretha LED Strip to a 24V DC Power Adaptor with a male Jack output. It connects to an Aretha Profile at one end and has a female Jack at the other.

Its function and installation are very easy, simply insert the corresponding end into the profile and to the power adaptor, tap the button to switch it on, and again to switch it off.

It works with a tactile button :

- 1 Tap - Turns ON
- 2 Taps - Turns OFF
- With each tap - Increase/Decrease brightness, 4 taps max.
- Holding down - Increase / Decrease brightness.

*Cable length: 530mm
