Description

This Mercury Pendant Light combines a unique and elegant design with a maximum quality finish.

This type of vintage design lamps allows us to provide a 60's touch that will bring personality to any space, giving us a unique look. This Mercury Pendant Light **is made of aluminium and we can find it in two different finishes**, black and gold, so that we can choose the unit that best suits our needs.

The light emitted by this Mercury Pendant Light will depend on the E27 LED Bulb we install. In this way, we can choose warm white, daylight and cool white, depending on the environment we wish to create. An interesting option is **to go for RGB bulbs that will provide us with extra versatility** when lighting a space, be it in a home or a business.

Discover the decorative options offered by our range of LED Pendant Lights, available here at LEDKIA, our online lighting shop.

***Height-adjustable cable**

*This lamp can take bulbs with a maximum diameter of 125mm.

Requires an E27 Bulb that IS NOT INCLUDED, but can be found **here**.
