Finish	Ref:
<input type="checkbox"/> Aluminium	68645-137957

Technical Details

Maximum Power:	500 W
Voltage:	220-240V AC
Frequency:	50-60 Hz
Use:	Indoor
IP Protection:	IP20

Material:	Aluminium
Installation:	Recessed
Warranty:	3 Years
Certifications:	CE & RoHS, UKCA
Brand:	SIMON

Description

40 to 500 W/VA light switch dimmer works by means of a rotary switch/dimming system as well as a screw clamping system and is operated by means of a rotating element.

Two electronic ballasts cannot be connected to the same circuit.

It is compatible with the Simon 27, 31, and 82 Series, which makes it very easy to install.

This voltage regulator functions as a switch or as a changeover switch.

Valid for loads:

- Incandescent lamps
- 230V halogen lamps
- Halogen lamps with electromagnetic transformer (max. 300W)
- Halogens with electronic transformer (maximum 300W) -Halogens with electronic transformer (maximum 300W)
- 2.5A protection fuse and spare fuse included.
- Power supply: 230V

*Not compatible with **LED luminaires**.

*Frame and cover not included.
