| <b>Dimensions</b>          | 72 mm x Ø45 mm |  |                              |

## ***Ambience***

## Description

**The 4W E27 G45 Filament LED Bulb is perfect for upgrading our bulbs** without losing the retro look.

The synthetic filaments that make up its light source offer 380 lumens. This brightness is more than **enough to replace incandescent bulbs up to 30W**. The light it emits is very evenly distributed with an opening angle of 360°, excellent for general lighting.

Made of glass, the **4W E27 G45 Filament LED Bulb has a life span of 30,000 hours**. As it is so durable, it also allows us to save on the purchase of new bulbs, as it is not necessary to change them so often.

Start saving on your lighting bill without sacrificing design and quality with the 4W E27 G45 Filament LED Bulb from our online lighting shop Ledkia.
