Technical Details

Maximum Power:	575 W
Voltage:	220-240V AC
Multi-Voltage:	100-240V AC
Frequency:	50-60 Hz
Use:	Indoor
IP Protection:	IP20
Material:	Aluminium

Installation:	Surface
Size:	307x285x593 mm
Total Weight:	14 Kg
Doesn't include:	Bulbs
Warranty:	3 Years
Certifications:	CE & RoHS, UKCA
Brand:	EQUIPSON

Description

The **Floodlight Lampholder MULTIPAR MSR 575 B/S EQUIPSON 27MUL00** is manufactured by the prestigious brand EQUIPSON, a Spanish high-tech company specialized in entertainment and professional installation. It was founded in 1995, and after more than 20 years of rapid growth, the company has earned the trust and respect of all major players.

Characteristics of the Floodlight Lampholder MULTIPAR MSR 575 B/S EQUIPSON 27MUL00

This spotlight allows a homogeneous colour tone to be obtained. **It is controlled and dimmed by DMX protocol through fixed channels, allowing to control the behaviour of the LED lights at all times.** It is easy to use, just connect a console compatible with the DMX standard to the input enabled for this function.

Its heat dissipation system is one of the most effective in the market, as it is made of high resistant aluminium materials and features a honeycomb shaped panel.

The back of the spotlight has an interface with a screen to display the DMX channels and buttons to navigate through the menu. You can select different parameters such as manual dimmer and strobe (blinking) mode with speed control.
