Technical Details

Tension	220-240V AC
Rated Voltage	170-265V AC
Frequency	50-60 Hz
Adjustable	No
Casquillo	GU10
Light Source	EPISTAR SMD2835
Use	Indoor
IP Protection	IP20

Dimensions	58 Milímetrox Ø50 Milímetro
High	57 mm
Diameter	50 mm
Light color	Cool White, Daylight, Warm White
Color Temperature	6500K, 4000K, 3000K
Energy Efficiency 2023 (EU-2019/2015)	F
Flicker	No Flicker

Description

This 6W GU10 LED Bulb is made from PC and provides a pleasant tone of light. Save up to 80% by replacing traditional halogen bulbs with LEDs, offering a more focused and high quality light. This is a much better alternative with plenty of decorative possibilities and also high energy savings.

It's very easy to install, just remove the traditional halogen and install the new GU10 Bulb with a direct connection to the mains. This LED Bulb allows us to eliminate the consumption of conventional ballasts (electrical or electromagnetic), further increasing our energy savings.

Thanks to a reduced size, power and consumption, these are perfect for lighting shop windows, showcases, hallways, wardrobes, bathrooms, kitchens, etc.
