Technical Details

Power:	36 W
Maximum Power:	400 W
Power Factor:	0.96
Voltage:	220-240V AC
Multi-Voltage:	100-240V AC
Frequency:	50-60 Hz
Light Source:	BRIDGELUX
CRI:	85
Lumens:	3240 lm
Luminous Efficiency:	90 lm/W
Energy Efficiency 2021 (UE-1369/2017):	A+

Energy Efficiency 2023 (UE-2019/2015):	B
Beam Angle:	30°
Use:	Indoor, Outdoor
IP Protection:	IP65
Material:	Aluminium
Installation:	Surface
Size:	1000x80x130 mm
Remote Control:	IR
Life Span:	60,000 Hours
Warranty:	3 Years
Certifications:	CE & RoHS, UKCA

Description

The **30° 36W LED Wall Washer Light Bar RGB 1000mm IP65 Silver** features **high quality optic** that is especially designed for **diffused lighting**.

Characteristics of the 30° 36W LED Wall Washer Light Bar RGB 1000mm IP65 Silver

The **high efficiency 30° 36W LED Wall Washer Light Bar RGB 1000mm IP65 Silver** is designed in an **aluminium chassis** that provides **excellent thermal conductivity**, as well as a great **resistance to high temperatures**.

The new **high efficiency 36W linear LED wash light** has a **luminous output of 160lm/W** and has a **high chromatic reproduction index of 85 CRI**. This linear wash light is an ideal outdoor product because of its IP65 protection factor. It includes an end cap to ensure a watertight seal.

Advantages of the 1000mm 36W RGB Linear LED Wash Light IP65

LED wash lights are widely used to project light on to buildings, walls, facades, gardens, stages, museums or exhibitions. It can be installed as a wall light, on the ceiling or even on the ground thanks to its adjustable support.

Featuring a high quality driver that is integrated into the wash light makes **installation very simple**. It offers **instant ignition** and can even be used as stage lighting. Another great advantage of this High Efficiency Linear Wash Light is the ability to join several linear wash lights together to form a continuous line. They incorporate an input cable and an output cable and can connect up to 400W of maximum power. For example, you can connect up to 11 36W wallwashers in a series.

The lens protection is made of ultra-resistant polycarbonate that in combination, with the aluminium chassis make the wash light a **robust and durable product**.
