Description

The range of LED light fixtures is specifically designed to be positioned on a mirror, especially in bathrooms. You will be able to perform your Beauty routine with the right lighting.

Features of 5W Belize LED Wall Light for Bathroom Mirrors

The **Belice 5W LED Wall Light** is made of aluminum and glass with excellent finish. It has a modern and minimalist style perfectly compatible with any deco style. In addition, it integrates the perfect amount of LEDs to offer **good illumination with a consumption of only 5W.**

Its IP44 protection ensures its perfect performance in environments with high humidity such as a bathroom. **Its installation is very simple, after connecting the Belice 5W LED Wall Light driver directly to 220V AC you only have to let the wall light rest on the mirror fixing it with the screws provided in the product box.**

Enjoy this Belize LED Wall Light at an incredible price available at our online shop.

* Suitable for mirrors from 3 to 6 mm thick
