Description

This module for Internet and Satellite is made up of an RJ45 outlet and a satellite outlet. This module is of the standard size and is compatible with most recessed back-boxes and surface mechanisms. With a glass frame that's available in the accessories section, it will provide a very professional look.

They are normally installed in a recessed fashion and it's recommended that they be installed indoors. It has CE and RoHS certifications. Made of polycarbonate, this Internet and Satellite module is **highly resistant and durable**. Complement the installation of any space with the different modules available in our catalogue.
