Description

RJ45 Connectors are used for data cables or Category 6 network cables. Their PVC finish, **shielded metal cover** and 8 pins will allow you to clip or wrinkle the ends of braided cables easily and quickly. This connector has a security pin that acts as an earth wire, which makes it **perfect for outdoors**.

Don't hesitate in visiting **LEDKIA** and join cables from your network, security cameras, scanners, etc., with the **Outdoor RJ45 Connector**.

Take advantage of the offers that we available at LEDKIA, and like always, we have unbeatable prices.
